EDUCATION

- **Sri Venkateswara University College of Engineering (SVUCE), Tirupati.** 2024-2027
Bachelor of Technology in Electronics and Communication Engineering. CGPA: 8.6
- **Government Polytechnic College, Ananthapur** 2021-2024
Diploma — Electronics and Communication Engineering. Percentage: 95.6%
- **Balavikas English Medium High School.** 2012-2021
All India Secondary School Examination (10th SSC). Percentage: 93.6%

PROJECTS

- **MediCare+ - Full - Stack Healthcare & Patient Portal** [🔗](#)
Developed a secure, role-based full-stack patient portal connecting patients, doctors, and clinical nursing staff.
 - **Engineered** a secure medical record upload system (using Multer and Express) allowing clinical staff to attach files, making diagnoses and reports instantly accessible via the patient dashboard.
 - **Integrated** a dynamic health analytics portal highlighting patient health scores with progress metrics and automated wellness suggestions using natural language note analysis.
 - **Designed** a secure multi-role authentication flow utilizing bcryptjs password hashing and 6-digit email OTP (One-Time Password) verification via Nodemailer SMTP.
 - **Tech Stack:** ReactJS, Node.js, Express.js, MongoDB, TailwindCSS, Axios, Git.
- **MD-Services (Pest and Home Care CRM Platform)** [🔗](#)
React, Firebase Firestore, Cloudinary, REST APIs, Git, Vercel
 - Designed and deployed an end-to-end service management system for a client portfolio spanning Pest Control, Waterproofing, Housekeeping, and Sanitization verticals.
 - Created a real-time CRM dashboard allowing admins to instantly update service details, track content logs, and manage high-resolution before/after media assets.
 - Implemented robust client-side error-handling, network timeouts, and local data-fallback layers, achieving 100% uptime during database operations.
 - Handled cross-platform responsiveness and UI/UX flows, ensuring optimized page speeds and clean asset loading across mobile and desktop environments.

EXPERIENCE

- **NxtWave-Sprint Internship** [🔗](#) Jan – Feb 2026
Responsive Web Design Online
 - Architected a secure, role-based Healthcare Management System utilizing **React js** and **MongoDb**, empowering administrators and nurses to streamline record management and providing users with encrypted access to medical reports.
 - Collaborated via **Git/GitHub** for version control, participating in peer code reviews and iterative feature planning to ensure a modular and bug-free web application.

TECHNICAL SKILLS AND INTERESTS

Languages: C, Python, HTML, CSS, JavaScript

Frameworks & Libraries: React.js, Node.js, Express.js, WebSockets

Core Knowledge Real Time Operating Systems, Computer Networks

Cloud/Databases: Relational Database(MySql), MongoDB

Relevant Coursework: Canva, Visual Studio Code, Git/ GitHub, MS Office, Google Colab.

Soft Skills: Communication, Self-learning, Presentation, Adaptability

ACHIEVEMENTS AND CERTIFICATIONS

- Contributed to the development and maintenance of the official [website](#) for Sri Venkateswara University College of Engineering (SVUCE).
- Served as a **Marketing Team Member**, **Technical Event Coordinator**, and managed the [website](#) for the **SIGMOID** technical fest at SVUCE.
- Secured State Rank 42 in Engineering Common Entrance Test 2024. [🔗](#)
- **Certificates:** SQL [🔗](#); Static Web Design [🔗](#); Responsive Web Design [🔗](#)
